Badge for each team championship (unlimited per player)

Pro days for top winners each month (unlimited per player)

### Who can join a League?

Pro eCrib members

### How many games do I play?

Trad

- Up to 45 games per open-play session
- As needed in playoffs
- Maximum 3 games against any one opponent in open-play and playoffs

For KC, Cross, and Baseball:

- Up to 20 games per open-play session
- As needed in playoffs
- Maximum 4 games against any one opponent in open-play and playoffs

Monthly session and play-off schedule:

- Open-play Session 1 runs approximately the 1st — 10th
- Open-play Session 2 runs approximately the 10<sup>th</sup> — 20th
- Bracket play-offs run approximately the 20th — 30th/31st

### How do I play a League game?

Enter the League Lounge to either join or set a game

Click "League"/"Who's Online" to send invitations to play to League players in other lounges

Games played in the League Lounge are counted in your team's session results (League games are denoted by a fleur-de-lis icon in the set-up description)

Games played outside the League Lounge are not added to your team's session score, even when you play other League members

Games played over your individual or team limits for that session count against your team; the number of excess games will be deducted from your win column

### How can I track my team's standings and number of games played?

Click "League Play"/"Browse Clubs"

Find your team and click “Results” for team stats

Click your name for your individual stats, including number of games played per opponent

What are the rules?

Request a copy of the *eCribbage League Manual* for official League rules

How do I form a team?

Go to “League Play”/”Create a 3 or 4 Player Club/Team”

Enter:

- Your team name
- The best agreed time for your team to play
- The type of team you are forming (3 players per KC team; 3 or 4 players per Trad team)
- The names of your members (from the drop-down lists; Pro players are eligible for League play, non-Pro players are not)

Click “Create”
